The Educational Remodeling Tour

H10: 32 W 40th St

Designer: Katie Jaydan | Project Type: Kitchen, Bath
 Educational Feature: The In's and Out's of Cabinetry

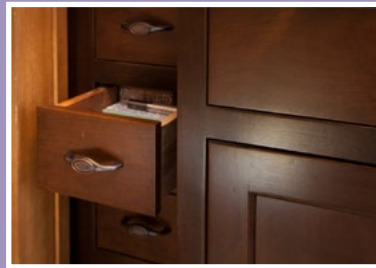

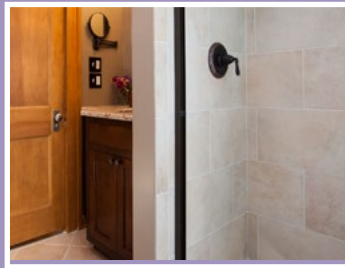

This tired Bathroom had already had a facelift but it was in need of a complete remodel. The elevated tub was eliminated and converted into a walk-in shower for easier accessibility. A new custom vanity with quartz countertops were installed along with a beautiful undermount sink with scalloped detailing that was carried throughout the space in every detail, from lighting to accessories and cabinet hardware. The new Bathroom is now a glamorous retreat while maintaining the complete functionality that it serves.
