HOME TOUR

The Educational Remodeling Tour

H22: 1270 Watson Ave

Designer: Katie Jaydan | Project Type: Kitchen
 Educational Feature: Working Within an Existing Space

This 1946 Kitchen was looking for some updates while maintaining its original charm. To create more space, a closet in the adjacent room was removed and the wall was opened up slightly creating a more open floor plan while still separating the two spaces. The Kitchen was completely gutted and hardwood floors were matched throughout to maintain the original look without completely redoing the floors. Overall, the homeowners were able to get a complete new Kitchen that fits their lifestyle without changing the foot print of their home.
