The Educational Remodeling Tour

H23: 600 Montcalm Pl

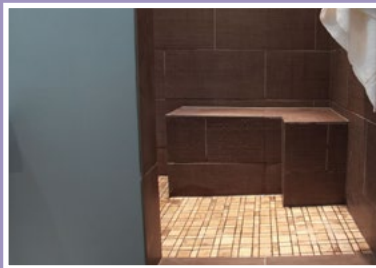

Designer: Courtney Walker | Project Type: Bathroom
 Educational Feature: Master Suite Upgrade Options

Both the master and kids baths received major transformations with this project. The homeowners were looking for a more spa-like experience in the master bath, which was split into two spaces. The bathroom entry now has maple his/her storage with the new large vanity and its custom cabinetry. The new bathing room has a walk-in shower with a bench which is adjacent to the large soaking tub. A Kohler Moxie showerhead, along with a hand shower was put in place, allowing the homeowners to enjoy music while getting ready, and the heated floors complete the luxurious experience. The kids bath was updated with bright colors and a new his/her vanity, creating a more functional layout overall.
